

RAF Intelligence — RADV Audit Package

Final RAF Score
0.7842

Patient Name	David Anderson
Patient ID (PID)	9.0
Date of Birth	1953-04-27
Sex	Male
Provider ID	N/A
Measurement Year	2026
Model Segment	CNA
Document Generated	April 07, 2026 at 12:32 UTC

CONFIDENTIAL — This document contains protected health information (PHI) prepared for RADV audit defense purposes only. Do not distribute without authorization. Generated by RAF Intelligence.

Table of Contents

1	RAF Score Summary
2	HCC Code Table
3	Per-HCC MEAT Evidence
4	Suspect Conditions Report
5	Active Diagnoses & Encounter Summary
6	Provider Attestation

Section 1 — RAF Score Summary

Component	Score	Notes	
Demographic Score	0.3960	Age/sex risk adjustment from CMS model	
Disease Score	0.4790	Sum of all HCC coefficients	
Interaction Score	0.0000	Disease interaction terms	
FINAL RAF SCORE	0.7842	Model: CNA	

0	0.7842	CNA	2026
HCCs Captured	Total RAF	Model Segment	Measurement Year

Section 2 — HCC Code Table

Each HCC is listed with its supporting ICD-10 codes, coefficient weight, and MEAT documentation status. Green = Complete, Yellow = Partial, Red = Missing.

No HCC detail available for this patient and year.

Section 3 — Per-HCC MEAT Evidence

MEAT criteria: Monitoring, Evaluation, Assessment, Treatment. Each category requires direct clinical evidence from encounter notes within the measurement year to satisfy RADV documentation requirements.

No HCC detail available for MEAT analysis.

Section 4 — Suspect Conditions Report

The following conditions were identified as potentially undocumented based on active medications, laboratory results, or prior-year HCC capture history. These represent opportunities for gap closure in the current measurement year.

No open suspect conditions identified for this patient.

Section 5 — Active Diagnoses & Encounter Summary

Active ICD-10 Diagnoses

ICD-10 Code	Description	Encounter Date
Z71.3	Dietary counseling	
N18.31	CKD Stage 3a	
E11.65	T2DM with hyperglycemia	
E66.01	Morbid obesity due to excess calories	
E11.319	E11.319	
N18.3	Chronic kidney disease, stage 3	
E11.22	E11.22	
Z91.120	Intentional underdosing due to financial hardship	
Z60.2	Problems related to living alone	

Encounter History

Enc. ID	Date	Reason / Chief Complaint	Provider	Facility
1011.0	2025-11-03	Diabetes and CKD follow-up	None None	General Hospital

Active Medications

Medication	Dosage	Frequency	Start Date
Metformin	1000mg	—	2025-11-03
Lisinopril	20mg	—	2025-11-03
Semaglutide	0.25mg	—	2025-11-03
Metformin HCl	1000mg BID	—	
Lisinopril	20mg daily	—	
Semaglutide	0.25mg weekly	—	

Section 6 — Provider Attestation

I, the undersigned treating provider, attest that the diagnoses documented in this audit package are accurate to the best of my knowledge, were evaluated and/or treated during the measurement year, and meet CMS RADV documentation requirements. All diagnoses are supported by medical record evidence contained herein.
